

Retea GN propusa redusa presiune
PE100 SDR11 Dn90 L=120,00m

Retea GN propusa redusa presiune
PE100 SDR11 Dn125 L=372,00m

LEGENDA:

- Unita de proprietate
- Conducta distributie gaze naturale redusa presiune existenta, PE100 SDR11 Dn90mm
- Conducta distributie gaze naturale redusa presiune proiectata, PE100 SDR11 Dn90mm
- L=235,00m
- Resolutoare cu capac
- Staii energie electrice
- Punct de legatura cu conducta in functiune
- Cap terminal final al conductei nou proiectate
- Bransament gaze naturale redusa presiune proiectat PE100 SDR 11; Dn 32 mm; L=3.00 m.l.
- Retea canalizare menajera, din PVC, Dn 300mm si racorduri
- Retea distributie apa, bransamente apa
- Linie electrica subterana de 0,40KV

NOTA: Probele de presiune se fac in regim de MEDIE presiune
